DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, drawn to a catheter water barrier, classified in class 2, subclass 114.
- II. Claims 12-15, drawn to a method for using a catheter water barrier, classified in class 604, subclass 179.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed can be used in a materially different process of using that product such as use as a water barrier without a catheter.

A telephone call was made to John Chupa on April 22, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made (attorney's telephone number at 248-865-9588 was indicated as being disconnected and no further information was given).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ann Y. Lam whose telephone number is (703) 306-5560. The examiner can normally be reached on T-F 8-6:30.
